**Attachments:** Assumable Waters - Jan 2017 SubCmte Meeting - Summary v3.docx

Morning Jake,

I am hoping you can take a look at this today. If not I will, but since I made most of the comments last time, I think fresh eyes are best. Will do if you don't have time, just a thought on conciseness and clarity.

Second, did you hear from Eugene? Are we on the agenda for May 10<sup>th</sup>? If so where is the meeting? I can check with him if you want me to, just trying to go through process.

Lastly an FYI, I still do not have go ahead for April 17<sup>th</sup> meeting. I am pushing OW to push OP to at least say we can hold the meeting even if not in FRN.

- Kathy

Both

Here's the meeting summary with editing incorporated but a few comments and my responses left FYI. I agree that the middle part of this summary is rambling at best, but not sure the than what I did modestly to fix it. If you have specific ideas, let me know.

We are still going back and forth on the report with Michelle and lingering comments from later comers on the drafting work group. Our goal is to get this out by Friday to the full subcommittee. Our intent is to send it in PDF, allow people to yellow sticky comments if they want, but to avoid much further editing in a Word document. It has been edited to death, and then some! I'll keep you apprised of that progress,
